Letter of request

Dear Mr. or Mrs.

We are representatives of the „Mining Front” charitable project. The „Mining Front” project was created to restore war-damaged mining infrastructure in Ukraine to counter the consequences of the Russian invasion.

The purpose of the „Mining Front“ charitable project is to provide donor financial and material aid to Ukrainian mining enterprises that suffered from hostilities during the aggressive war of the Russian Federation against Ukraine, on a voluntary, non-profit, equal and mutual basis.

We are looking for partners to establish further cooperation and promote common goals for restoring Ukraine’s mining infrastructure. Join the recovery of Ukraine in the mining industry! Together we will get rid of the world’s raw material dependence on the aggressor.

It is assumed that international service and mining companies like yours as well as financial institutions can assist. The consolidated funds will be used to restore infrastructure in the extractive sector that has been damaged or destroyed as a result of hostilities on the territory of Ukraine.

We express our gratitude for Your attention which is aimed at ensuring the common interests of peace and welfare of our country. We appreciate your support and moral qualities in such a difficult time for Ukraine and look forward to further cooperation.

If you want to become a part of the World Economic Front and establish the work or resolve organizational issues, please contact us by our E-Mail:

You can also read more about activities on our website:

<https://mining-front.com/en>

After all, only by cooperating and working together will we be able to provide mining infrastructure with new chances to restore work and continue to ensure the world by the results of their activities!

We look forward to receiving your feedback!

Thank you in advance.
